

2018 4.2 ~ 4.8 WeeklyReport

- 4.2 ~ 4.4 continue my intership in dolphin database company

test the openchunks, getChunksMeta function

study kernel regression

study the distributed version of SVM

- 4.5 - 4.7 stay in HDU

continue study the distributed SVM

research the code of libsvm

- 4.8 continue my intership

Write a function to change the year/month/day to the int

Test the table join function

My conclusion

- my research of distributed svm stop because I have no idea about those papers and have a little understanding about SVM algorithm
- the next week would be my last week in my intership
